

CZECH LIGHTING PRODUCER WITH 30 YEAR OLD TRADITION

Company situated in Jihlava, Vysočina,
Czech Republic

Producing luminaires since 1991
Over 60 employees
Partners in 50 countries around the world

Own metal production, powder-coating facility, LED assembly line, high-capacity stock of components and material

Products with handmade three-layer
Opal glass shades TRIPLEX OPAL

Own plastic press facility in Czechia

Own development and construction of LED power sources since 2009

NEWS 2020/2021

New products

Luminaires with TRIPLEX OPAL glass shades

KUMA S

Luminaire with cable pendant

White or black color

IP20

E27 without cover/ LED with cover

2 sizes:

ø120x420mm KUMA S2

ø150x550mm KUMA S3

New products

Luminaires with TRIPLEX OPAL glass shades

KUMA 2,3

Ceiling mounted luminaire

Without visible base

IP20

E27 without cover/ LED with cover

2 sizes:

Ø120x420mm KUMA S2

Ø150x550mm KUMA S3

New products

Luminaires with TRIPLEX OPAL glass shades

KUMA 2a, 3a

Ceiling mounted luminaire

Without visible base

IP20

2 sizes:

Ø 120x300mm KUMA S2

Ø 150x300mm KUMA S3

Ø120

Ø150

ALKOR 2

ALKOR 3

New products

Luminaires with TRIPLEX OPAL glass shades

FLORA 1, 2, 4

Surface mounted luminaire

IP43, class II., source: LED module,

No longer possible with E14

New: bases in black or silver color

New products

Luminaires with TRIPLEX OPAL glass shades

CARINA V1, ERIS V, ERIS CV

Semi-recessed luminaires

IP44, source: LED module / E27 for ERIS

Mounting: 3 steel swivel holders,

Suitable for plasterboard ceilings, etc.

New products

Luminaires with plastic shades

SKAT 1, 2

Surface mounted luminaire

With polycarbonate shade (PC)

IP65, IK10, source: LED module / E27

5 color versions

New products

Luminaires with plastic shades

SAGITA 1 PC, 2 PC

Surface mounted and also semi-recessed

IP54 / IP44, source: LED module / E27

Possible equipment: DALI, emergency, sensor

SAGITA 1

SAGITA 2

New products

Luminaires with plastic shades

SAGITA LE, TITAN LE, DELIA LE

Pendant luminaire

without visible power supply cable

LED driver in upper base

IP40

New products

Luminaires with plastic shades

DELIA, TILIA - C,S

Surface mounted luminaires

IP54 / IP44, source: LED module / E27

Possible equipment: DALI, emergency, sensor

NEW:

Shades with black or silver foil stripe
with brushed decor

New products

Luminaires with plastic shades

TRITON 1, 2

Surface mounted industrial luminaire

IP65, IK10

PC – Polycarbonate body and shade

Source: LED module / E27

Possible equipment:

emergency, sensor, DALI

NEW: black color for base

TUNABLE WHITE

2700-6500K

Function of change of chromaticity temperature from 2700K to 6500K

a) TouchDIM

- two buttons can be used to control dimming and chromaticity temperature change
- buttons can be connected to the DALI interface in series with a diode
- button 1 supports on / off switching and light intensity change
- button 2 supports chromaticity temperature change

Advantages

- the cheapest TW control solution
- no additional DALI controller required
- possibility to connect up to 4 luminaires (ballasts) in parallel
- storage of individual lighting level

Requirements

- 4-core cable supplied to the luminaire

b) Bluetooth remote control

- TW luminaire can be fitted with Tridonic basicDIM Wireless Bluetooth receiver
- Control by smartphone or tablet using a free application available for Android and iOS
- Option to add Wireless controller: Tridonic basicDIM Wireless User Interface

Advantages

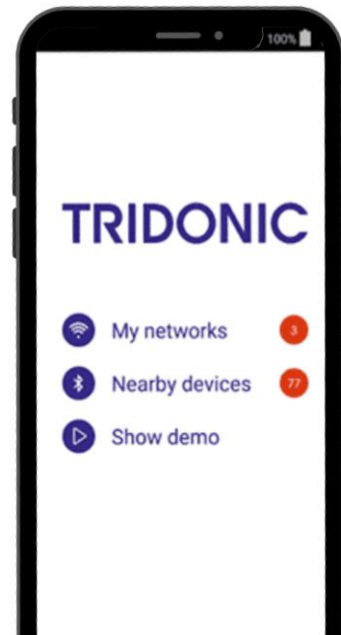

- Thanks to wireless technology, no interface connection is required
- Possibility to change light intensity and chromaticity temperature using preset light scenes
- The luminaire can be controlled in rooms where there is not enough wiring for classic digital dimming (3-core cable is enough)

Requirements

- Smartphone or tablet
- app download

iOS: itunes.apple.com/cz/app/4remote-bt

Android: play.google.com/store/apps/casambi.tridonic

b) Zigbee 3.0 DALI CONV LI

- TW luminaire can be fitted with a universal converter for connection to ZigBee controls
- Integrates TW luminaires into a smart home via Zigbee transmission

- The luminaires are then compatible with smart home systems such as:

Philips Hue Bridge

Amazon Echo Plus (Alexa)

Advantages

- Thanks to wireless technology, no interface connection is required
- The luminaire can be controlled in rooms where there is not enough electrical installation required for classic digital dimming, a 3-core cable is enough

b) Connection to DALI interface

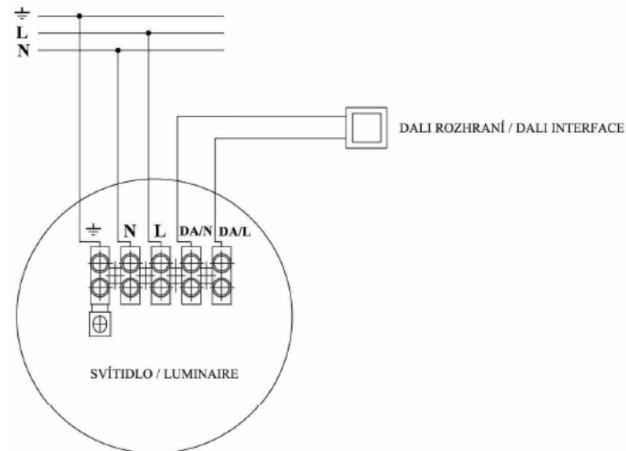

- The TW luminaire can be connected to any home intelligent system communicating with the DALI interface.

Requirements

- 5-core cable connected to the luminaire

Advantages

- integration of luminaires into complex control of an intelligent house

Expansion of the TUNABLE WHITE function for luminaires with TRIPLEX OPAL glass shades

AURA (3,5,11,V5,V11)

ELSA (4,6,V4,V6)

ERIS (2,3,V2,V3,C2,C3,CV2,CV3)

ARAKIS (2,3)

EDNA (3,5)

LINA (3,7)

Expansion of the TUNABLE WHITE function for luminaires with plastic shades – PC, PMMA

SAGITA_(1,2,V1,V2)

Switchable LED system 3000 K / 4000 K

- Possibility of switching between chromaticity temperatures of 3000 and 4000 K.
- Advantage: temperature change according to the customer's needs directly in the luminaire.
